

# Leon High School

## First Day of School

### Digital Academy Students

#### **What time should I be ready?**

- Students should up, dressed, and eaten breakfast by 7:15 am.
- Students should check to make sure their computer is on and functioning properly by 7:25 am.
- First class begins at 7:30 am.
- All students will report to their 1<sup>st</sup> period class.

#### **What should I have?**

- A single notebook or folder with notebook paper along with several pencils and pens for the first day. Teachers will let students know of specific needs on the first day of school.
- Students should have a quiet place to participate via the internet and complete work assignments.

#### **What are the rules?**

- Digital Academy students are expected to follow the same bell schedule as the face to face students.
- Attendance will be taken every day and every period.
- Each instructor will provide the digital student with a time of scheduled interactions; however, Digital Academy students must be available at any time during the class period to respond to the instructor. Lack of response from the student will negatively affect a student's participation grade.
- All work that is submitted is expected to be done by the student alone unless the instructor specifically states that the work is a group project. Any assignment deemed to be falsely completed will be given zero credit.
- Digital Academy students are not allowed on the school campus during school hours, including lunch. Digital Academy students can participate in school-approved after-school activities but cannot come on campus prior to 1:40 pm.
